PROFESSIONAL OBJECTIVE

Software developer with experience equipped with a set of creative and promising skills in web design, bug fixes, and new project development. Knowledgeable about various platforms, programming languages, and system maintenance. Competent in effectively managing individual projects as well as collaborating as part of a constructive team.

EXPERIENCE

Front-End Developer

Freelance   April 2019 - Present

- Learned new front-end programming languages and methodologies to perform tasks.
- Created technical requirements and worked with the engineering team to develop, test, and launch features on time and with high quality.
- Translated flat designs into clean, accessible, and interactive user experiences.
- Analyzed user needs to determine technical requirements.
- Used authoring languages or scripts and content creation tools to design, build, and maintain websites.

Backend Developer

Freelance   March 2021 - Present

- Created web models and prototypes that included physical, interface, logical, and data models.
- Developed databases that supported applications and websites.
- Wrote support code for web applications and websites.
- Analyzed user needs to determine technical requirements.

EDUCATION

Utesa University, Santiago, Santiago
